Name: Date Completed:

After visiting either a recognized nursery, public or botanical garden, complete these questions:

1. Where did you visit and did you speak to any staff?

2. What were the staff doing if you observed them and list five duties you think the staff would perform as part of their job.

3. Name (common or botanical) and briefly describe, four plants that you observed at this location.

4. Many horticultural jobs involve working with other staff or the public. Describe two aspects of this you would excel in and tow aspects that you could improve upon.

5. List five or six tools or machines that are used at this location.

6. On the back of this sheet, in one paragraph, briefly describe the history of the garden that you visited. If it was a nursery, describe the layout and general focus of the business
